

BIO 4201: Cell Biology Lecture

This is the lecture-only alternative to the lecture/lab course BIO 4205: Cell Biology. The mechanisms of cell signaling, regulation of growth and division, adhesion, movement, macromolecular, biosynthesis, processing and trafficking.

Credits: 3

Prerequisites:

BIO 3351

CHM 2212

BIO 3351 and CHM 2212 :Y

Program: [Biology](#)
