

Grand Challenges Scholars Program

The Grand Challenges are an aspirational vision of what engineering needs to deliver in the 21st century. Its 14 corresponding goals are focused on “continuation of life on the planet, making our world more sustainable, secure, healthy and joyful.” The Grand Challenges Scholars Program is an engineering education supplement that broadens the reach of undergraduate study and is open to all engineering majors. Students must fulfill five competencies related to their selected challenge.

Interested students can find additional information on the [Grand Challenges Scholars Program webpage](#).
