About

A co-major in Business Analytics, enriched with AI coverage, equips you with a deep understanding of business intelligence and advanced analytic tools such as decision modeling and analysis, and data mining that businesses need today. You will build strong analytical skills and the ability to create AI-enhanced solutions that boost business performance and value across industries.

The Business Analytics co-major must be taken in conjunction with a major in Accounting, Economics, Finance, Management, Management Information Systems, Marketing, or Real Estate.
