Office Location: Aldwyn One, Room 217

Telephone: 610-519-5944

Email: gayle.doyle@villanova.edu

About:

Developed in consultation with engineering alumni, faculty and students, Career Compass is a one-of-a-kind professional development curriculum unique to Villanova's College of Engineering. As part of our comprehensive undergraduate engineering program, students will learn not only the scientific, mathematical and engineering principles expected of every engineer, but also the professional skills needed to succeed in any career.

A graduation requirement that will appear on your transcript, Career Compass is a combination of self-directed online modules, in-person class sessions for first-semester students, and required activities, such as attending professional events on campus.

For additional information about the program [visit the Career Compass portion of the Current Engineering Undergraduate Students Intranet site](#).
